Reserve Grand Champion Market Swine	1	85	Logan Duyck	Verboort Livestock	Ear Notch: 5-4	Very nice project! This short backed stout made gilt rises to the top of this class rather easy. She possesses a powerful skeleton and yet maintains flexibility when on the move. A lot of product in a moderate package.
	2	44	Samuel Lindseth	Banks Barn Busters	White pig	Great job! I really appreciate the muscle shape and front end extension that this long bodied barrow possesses. I would like to level this one out through his hip and when he goes away he is starting to push his hocks outside of his skeleton.

	5	84	Piper Stewart	Patton Valley Livestock	Ear Notch: 3-2	I really appreciate this young ladies presentation of her project! When I study this hog I start to question the true amount of muscle in this package. Going and coming it narrows to the ground and even at a lighter weight it is starting to get soft in the lower 1/3 of it's body.
	6	75	Riley Standley	Banks FFA	Peaches	This gilt may be the most ideal in it's frame size for the class. I would like to see this gilt with a few more pounds heading to the rail. I get really concerned when you study this one's angle to her front shoulder she gets very steep and restrictive in her
	7	82	Paisley Gregg	Verboort livestock	9-Apr	Bigger framed gilt that I appreciate for her leanness of muscle. Where we run into problems is when this gilt gets on the move. She is straight out of her shoulder blade and soft in her pasterns, that is causing her to be very restricted on the move.
